

Ball-end thrust screws without head with full ball

Item description/product images

Description

Material:

Screw carbon steel, grade min. 10.9

Ball, ball-bearing steel or POM.

Version:

Screw black.

Ball hardened bright or POM.

Note:

Ball-end thrust screws with full ball are used when a clean, polished contact surface is required.

Longer versions have been specially designed to be glued in, allowing mechanical connecting elements with external thread to be made cost-effectively for small and medium-sized series.

Drawing reference:

Style A: steel ball

Style D: POM ball

Drawings

Ball-end thrust screws without head with full ball

Order No.	style	Component material	D	L	Ball-Ø	SW	Load rating max. kN (static load only)
