

## Joints with adjustable handles

#### Item description/product images

### **Description**

#### Material:

Joint die-cast zinc.

Fastenings die-cast zinc.

Spacer rings stainless steel.

Tapped bushes and countersunk screws steel.

Handle die-cast zinc DIN EN 12844. Metal parts stainless steel 1.4305.

#### Version:

Joint painted aluminum tone.

Fasteners electro zinc-plated.

Spacer rings bright.

Tapped bushings and countersunk screws electro zinc-plated.

Handle powder-coated. Steel parts bright stainless steel.

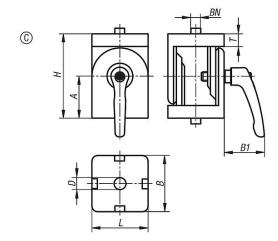

#### Note:

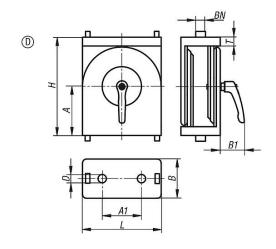

Joints for connecting two profiles at any angle.

The adjustment range is 0° to 180°. The joint can also be used as a heavy hinge.

When the spacer rings are inserted, the joint can move freely. When these are removed, the joint can be used as a rigid angle element. The joints are particularly suitable for use as adjustable brackets, swivel arms or similar applications.
