

Clamp straps, adjustable, style C

Item description/product images

Description

Material:

Steel.

Version:

Tempered and electro zinc-plated.

Complete with DIN 6379 stud, DIN 6340 washer and DIN 6330B nut.

Note:

These adjustable clamp straps can be quickly and infinitely adapted to the clamping situation. The clamp straps have different heel types both sides enabling the best end to be selected depending on the specific application. These extremely versatile clamp straps are suitable for use by metal cutting or non-cutting machining and also for press and injection-moulding applications.

Accessory:

K1204 Adjustable heel supports
