

Single leaf hinges adjustable, stainless steel

Item description/product images

Description

Material:

Stainless steel 1.4571.

Version:

Satin finished.

Note:

Single leaf hinge for inwards opening doors, screws on from outside. A screw on the hinge pin allows height adjustment of ± 4 mm.

The addition of titanium in stainless steel 1.4571 increases the corrosion resistance.

The opening angle is max. 180°.

Drawing reference:

1) grub screw M4, DIN 916

Single leaf hinges adjustable, stainless steel
