

MAGNI 111 BRAKE ROTOR AND DRUM COATING

Magni 111 is a chrome-free, black coating engineered for use on brake rotors and drums. This waterborne coating incorporates proprietary, inorganic pigments and other corrosion inhibitors, and provides good corrosion and heat resistance. Magni 111 is typically applied to a clean, dry component. Application is followed by a brief low-temperature cure or air dry.

- Applied via spray application methods
- Cost-effective single-coat system

PERFORMANCE DATA*:

Adhesion ASTM D3359:	5B rating
Coating thickness	50-70 microns
Color	Matte black
Heat resistance	Up to 300° C
Pencil hardness ASTM D3363:	B
Salt spray ASTM B117:	240 hours

OEM SPECIFICATIONS:

Ford	WSS-M2P170-B2
Nissan	NES M5083
Volkswagen	TL260

*Typical Values - refer to OEM Specifications and Magni Application Guidelines for official specifications
